ADMINISTRATOR'S SALE.

As everybody knows, Judge James P. Rodgers was appointed administrator of the estate of L. S. Delaplain. His orders were that the stock of L. S. Delaplain, Son & Co. must be closed at once. A SMALL CHILD KILLED

By an Electric Car at Bellaire Last Evening.

THE MOTORMAN AT ONCE ARRESTED

But Released When the Coroner Pronounces the Death the Result of an Unavoidable Accident—A Sad Lesson to Parents Along the Tracks. The Casualty Record Yesterday.

The new street car company on the other side of the river had its first serious accident yesterday afternoon in Bellaire, which resulted in the death of Alberta, the five-year-old daughter of Jacob Miller.

As car No. 12 was going south, and when near the store of M. Duga, two little girls attempted to cross the track in front of the car. The youngest, the Miller child, was run down and instantly killed.

The motorman, F. Calor, noticed a group of children on the right of the track and his attention was directed towards them, and he did not notice the two little ones on the left until his car was almost upon them. He immediately reversed his car, but not in time to avoid the accident. Motorman Calor was immediately arrested and held for a hearing.

Coroner Lowman was at once notified and he proceeded to an examination of the witnesses. Several witnesses were examined, and Mr. Calor's own statement was taken, and he was then released.

No blame whatever was attached to him, as he tried to avoid it, and he feels heartbroken over the terrible accident.

Conductor Burns was also called upon to testify, and his statement was but a repetition of what had been given, that everything was done to save the child's life, and that the accident was unavoidable.

Every effort has been put forth by the company to warn the children of the danger there is in crossing the track ahead of a car, but all warnings and pleadings of both management and operators availed nothing. The children would be allowed to play on the track, and this is the result. There has been several cases within the last few days where children have merely escaped with their lives, and then only by the almost superhuman efforts of the operators. Motorman Calor is one of the best and most skillful men on the line, and although he was exonerated from any blame whatever, he feels it keenly and it will be months before he recovers from the terrible shock. The heart-broken family have the sympathy of all who know them, as it was indeed an awful blow to them.

Kicked by a Horse.

Yesterday morning about 10 o'clock Will Steen, the South Side plumber, was holding a horse on Sixteenth street in front of the hide and tallow house, when a passing locomotive on the Baltimore & Ohio road frightened the horse, who reared his fore feet high in the air. One hoof came down violently on the young man's head, causing a bad fracture. Steen was taken into Dr. Behout's office, where his injuries were attended, to which he was conveyed to his home on Fortieth street. His injuries, though serious, are not dangerous.

The Gatling Gun to Charleston.

Yesterday morning M. Van Pelt, the warden at the Mountsville penitentiary, received a notice to send the gatling gun to Charleston. It has been kept in the hallway with the muzzle pointing into the dining room for a number of years. It is a forty-five shooter and would very quickly disperse a crowd. It was taken to the Ohio River station about 2 o'clock and sent down on the evening train. Along the way it was the cause of a great deal of interest.
